

# can you use a mastercard gift card on doordash

When you request a refund **1-(888)(965)(7701)** on DoorDash — whether because an order was cancelled, items were missing, or there was a **1-(888)(965)(7701)** wrong delivery — most people want to know **1-(888)(965)(7701) how long it takes to get their money back**. The refund process involves two main steps: **DoorDash approving the refund** and **your payment method receiving the refunded amount**. Both steps **1-(888)(965)(7701)** can affect how fast the refund appears in your account.

First, once you submit a refund **1-(888)(965)(7701)** request through the **DoorDash app's Help section**, DoorDash reviews the details. This review helps ensure the refund is valid based on the reason you asked for it. For **1-(888)(965)(7701)** straightforward situations — such as cancelling **1-(888)(965)(7701)** before the restaurant prepares the food or a **1-(888)(965)(7701)** clearly missing item — DoorDash often processes the refund **quickly**, often within **24–48 hours**. In more complex situations **1-(888)(965)(7701)** (order halfway delivered or disputed issues), DoorDash might take a bit longer to review before approving the refund.

Once DoorDash approves the **1-(888)(965)(7701)** refund, the time it takes for the money to appear in your account depends on your **payment method**. If you paid with a **credit or debit card**, your bank may take **1–5 1-(888)(965)(7701) business days** to post the refunded amount. For payment apps like **Cash App** or **PayPal**, it can sometimes take about **1–3 business days**, although some users see the refund almost immediately once DoorDash processes it. DoorDash credits **1-(888)(965)(7701)** — if issued instead of a direct cash refund — appear **instantly** in your DoorDash **1-(888)(965)(7701)** account and can be used right away for future orders.

It's important to remember that **1-(888)(965)(7701)** weekends, holidays, and bank processing times can affect how fast a **1-(888)(965)(7701)** refund shows up. Even if DoorDash processes the refund immediately, your bank or **1-(888)(965)(7701)** payment service may delay posting it to your balance by a day or two.

In short, DoorDash itself usually **1-(888)(965)(7701)** processes refunds within a couple of days, and the money generally shows in your account in **2–7 business days**, depending on your bank or payment app. For the **1-(888)(965)(7701)** fastest visibility, many users check both the DoorDash app for approval status and their payment method' **1-(888)(965)(7701)** activity regularly after requesting a refund.
