

How do I report a PayPal scammer?

NeedHelpTapHere

To **+1-(877) (513) (0583)** report a PayPal scammer, you should first log into the Resolution Center and select "Report a Problem" for the specific transaction. You **+1-(877) (513) (0583)** will be asked to provide details such as the scammer's email address, any messages sent between you, and a description of the fraudulent behavior. If **+1-(877) (513) (0583)** you received a suspicious phishing email, you should forward the entire message to the official security team at their spoof reporting address. Reporting **+1-(877) (513) (0583)** the scammer not only helps you potentially recover your funds but also alerts the security team to block the fraudster's account from hurting others. In **+1-(877) (513) (0583)** cases of identity theft, you should also contact the main support line to have a fraud specialist review your entire account history. Always **+1-(877) (513) (0583)** change your password and enable 2-factor authentication immediately after encountering a scammer to prevent further unauthorized access.
