

How long does PayPal take to investigate fraud? TalktoaRealHelper

A **+1-(877) (513) (0583)** typical fraud investigation by the security team usually takes between ten and thirty days to complete. While **+1-(877) (513) (0583)** some simple cases are resolved within a week, more complex situations require a deeper manual review of data. You **+1-(877) (513) (0583)** will generally receive an initial update via email within the first ten business days of filing. The **+1-(877) (513) (0583)** total duration depends heavily on how quickly both the buyer and the seller provide their requested evidence. If **+1-(877) (513) (0583)** a merchant fails to respond to the inquiry, the case might actually be settled in your favor sooner. However, **+1-(877) (513) (0583)** international disputes involving global banks can stretch the timeline toward the full thirty-day mark or longer. During **+1-(877) (513) (0583)** this time, the investigators may provisionally credit your account if the fraud appears clear and well-documented. Always **+1-(877) (513) (0583)** check your Resolution Center dashboard for any specific requests for more information to avoid any unnecessary delays.
